

MJ HYDROSTATICS IS A LINDE HYDRAULICS REMAN/ REPAIR CENTER!

- ▶ We are here to offer a Linde Reman program for Linde Hydraulic products.
- ▶ We Reman / repair Linde Hydrostat pumps & motors to meet your customer's specific needs.
- ▶ MJ Hydrostatics, Inc. was the **first** North American company to receive intensive training from Linde USA to become a Service Center. The training process included inspection, building and thoroughly testing Linde units to ensure they meet factory specifications. Extensive training was done onsite by Linde staff. MJ Hydrostatics has the tooling and dyno capabilities to thoroughly test and set to factory specifications

- ▶ We are supported by Linde USA every day with factory parts and extensive experience to make sure our units are built right with minimal delays
- ▶ MJ Hydrostatics prides ourselves on having the knowledge and experience to handle your needs for Linde Hydraulics parts and products.
- ▶ Linde products are original equipment on many manufacturers' machinery. As an OEM dealer, a reman unit may no longer be available through OEM distribution. Even with an OEM tag, Linde is cast into the housing of a pump or motor.
- ▶ **As a Linde Hydraulics Service Center and distributor, you can be confident we are here to help.**
